Message

Speed Post links more than 1300 towns in India, with 315 Speed Post Centres in the national network and 986 Speed Post Centres in the state network. Mapping of PIN Codes of delivery Post Offices with their respective State and National Speed Centers assumes significance in view of large number of Speed Post centers.

I am happy that Business Development and Marketing (BD&M) Directorate has taken this initiative to map all delivery Post offices with their respective State Speed Post centers and National Speed Post centers. I am sure this will help in improving the quality of sorting and expedite transmission and delivery.

The purpose of this Directory is to help in ensuring correct sorting and routing of Speed Post articles. Customers can also take advantage of this Directory to find out availability of Speed Post service to a particular destination.

I commend BD&M Directorate and the Circles for focusing their attention towards improving the Speed Post operational efficiency and also for making Speed Post network information available in public domain.

Radhika Doraiswamy

New Delhi

February, 2010

FOREWORD

The Speed Post network in India consists of 315 National Speed Post Centers (NSPCs). Each National Speed Post Center has a number of Delivery Post Offices (PIN Codes) attached with it through which the Speed Post articles meant for that NSPC city are delivered. In addition, there are 986 State Speed Post Centers spread across the country. Each State Speed Post Center (SSPC) is attached to a parent National Speed Post Center to which that SSPC consigns all its outward mail for further sorting and dispatch. Similarly, all Speed Post articles to be delivered through Delivery Post offices attached with a state Speed Post Centre are routed through its parent National Speed Post Centre. The delivery of Speed Post articles at SSPC city is made through various Delivery Post Offices (PIN Codes) attached with that SSPC.

2. There are more than 10,000 Delivery Post Offices (PIN Codes) on the Speed Post delivery network. As described above, each Speed Post Delivery Office (PIN Code) is attached to a National Speed Post Center either directly or through its State Speed Post Center. At present there is no index of Speed Post Delivery Post Offices in the country available for reference. Due to this:-

- (a) A large number of Speed Post articles are booked for delivery from those delivery Post Offices which are not on the Speed Post delivery network.
- (b) The sorting official is required to sort the Speed Post article for the National Speed Post Center to which the concerned Delivery Post Office (Pin Code) is attached. Sorting officials, many a times are not able to sort and consign the Speed Post article to the correct destination NSPC bag leading to missendings and delays.

3. This Directory is a comprehensive index of each and every delivery post office (Pin Code) on the Speed Post network in India. The format of the Directory is explained as under:

- (a) The data in the Directory is arranged Circle-wise in alphabetical order.
- (b) The first column lists all the National Speed Post Centers in a Circle in alphabetical order.
- (c) The second column lists all the State Speed Post Centers attached with a National Speed Post Center, Circle-wise.
- (d) The third column lists the names of all the Delivery Post Offices attached with the National Speed Post Centers directly or through State Speed Post Centers.
- (e) The fourth column indicates the corresponding PIN code of the Delivery Post Office.
- (f) For a Delivery Post Office listed in the third column (and its pin code in the fourth column), the name of its parent State Speed Post Center is listed in the second column and the name of its parent National Speed Post Center in the first column of the same row
- (g) For the Delivery Post Offices that are directly attached with a National Speed Post centre, the corresponding second column (of SSPC) is left blank.

4. I would like to place on record my appreciation for Mr. Gaurav Mehta, Deputy Manager, Business Development & Marketing Directorate who exhibited a high degree of commitment and dedication at various stages of preparatory work and execution in bringing out this Directory.

5. It is hoped that this Directory brought out by Speed Post & Marketing Division of Business Development & Marketing Directorate, Department of Posts would be used as a reference book and would serve the purpose for which it has been put together.
