11.1.2. Deviations/ Reservations/ Omissions - Substantive or Minor

- 1) During the evaluation of Proposals, the following definitions apply:
 - a. "Deviation" is a departure from the requirements specified in the RFP Document;
 - b. "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the RFP Document; and
 - c. "Omission" is failing to submit part or all of the information or documentation required in the RFP Document.
- 2) A deviation/ reservation/ omission from the requirements of the RFP Document shall be considered a substantive deviation as per the following norm, and the rest shall be considered a Minor deviation:
 - a) which affects in any substantive way the scope, quality, or performance standards of the Services;

- b) which limits in any substantive way, inconsistent with the RFP Document, the Procuring Entity's rights, or the Consultant's obligations under the contract; or
 - c) Whose rectification would unfairly affect the competitive position of other Consultants presenting substantively responsive Proposals.
- 3) The decision of the Procuring Entity shall be final in this regard. Proposals with substantive deviations shall be rejected as nonresponsive.
- 4) Variations, deviations, and other offered benefits (Techno-commercial or Financial) above the scope/ quantum of Services stipulated in the RFP Document shall not influence evaluation Proposals. If the Proposal is otherwise successful, such benefits shall be availed by the Procuring Entity, which would become part of the contract.
- 5) The Procuring Entity reserves the right to accept or reject Proposals with minor deviations. Wherever necessary, the Procuring Entity shall convey its observation as per ITC-clause 11.1.3 below on such 'minor' issues to the Consultant by registered/ speed post/ electronically etc., asking Consultant to respond by a specified date. If the Consultant does not reply by the specified date or gives an evasive reply without clarifying the point at issue in clear terms, that Proposal shall be liable to be rejected as nonresponsive.

11.1.3. Clarification of Proposals and shortfall documents

- 1) 1) During the evaluation of Techno commercial or Financial Proposals, the Procuring Entity may, at its discretion, but without any obligation to do so, ask the Consultant to clarify its Proposal by a specified date. The consultant should answer the clarification within that specified date (or, if not specified, 7 days from receiving such a request). The request for clarification shall be submitted in writing or electronically, and no change in prices or substance of the Proposal shall be sought, offered, or permitted that may grant any undue advantage to such Consultant. Any clarification submitted by a Consultant regarding its Proposal that is not in response to a request by the Purchasing Entity shall not be considered.
- 2) The Procuring Entity reserves its right to, but without any obligation to do so, seek any shortfall information/ documents only in case of historical documents which pre existed at the time of the Proposal Opening and which have not undergone change since then and do not grant any undue advantage to any Consultant. There is a provision on the portal for requesting Short-fall documents from the Consultants. The system allows taking the shortfall documents from consultants only once after the technical Proposal opening.
- 3) If the consultant fails to provide satisfactory clarification and/or missing information, its RFP shall be evaluated based on available information and documents.

11.1.4. Contacting Procuring Entity during the evaluation

From Proposal submission to awarding of the contract, no Consultant shall contact the Procuring Entity on any matter relating to the submitted Proposal. If a Consultant needs to contact the Procuring Entity for any reason relating to this tender and/ or its Proposal, it should do so only in writing or electronically. Any effort by a Consultant to influence the Procuring Entity during the processing of Proposals, evaluation, Proposal comparison or award decisions shall be construed as a violation of the Code of Integrity, and the Proposal shall be liable to be rejected as nonresponsive in addition to other punitive actions for violation of Code of Integrity as per the RFP Document.

11.2. Evaluation of Proposals

11.2.1. Preliminary Examination of Proposals - Determining Responsiveness

A substantively responsive Proposal is complete and conforms to the RFP Document's essential terms, conditions, and requirements without substantive deviation, reservation, or omission. Proposals with substantive techno-commercial deviations or other essential aspects of the RFP shall be rejected as nonresponsive. Only substantively responsive Proposals shall be considered for further evaluation. Procuring entity reserves its right to consider and allow minor deviations in technical and Commercial Conditions. Unless otherwise stipulated in the AITC, the following are some of the crucial aspects for which a Proposal shall be rejected as nonresponsive:

- 1) The Proposal is not in the prescribed format or is not submitted as per the stipulations in the RFP Document.
- 2) Failure to provide and/ or comply with the required information, instructions etc., incorporated in the RFP Document or evasive information/ reply against any such stipulations.
- 3) Required Bid Security (EMD) has not been provided.
- 4) Consultant no longer complies with the eligibility criteria in the preceding EOI process based on which they were shortlisted for participation;
- 5) The Services offered are not eligible as per the provision of this tender.
- 6) The consultant has quoted conditional Proposals or more than one Proposal or alternative Proposals unless permitted explicitly in the AITC.
- 7) The Proposal validity is shorter than the required period.
- 8) The Proposal departs from the essential requirements stipulated in the bidding document;
- 9) The consultant has quoted 'Nil' Service charges/ margin over the minimum wages in Personnel Deployment Schedule.

10) Non-submission or submission of illegible scanned copies of stipulated documents/ declarations.

11) Furnishing wrong and/ or misleading data, statement(s) etc. In such a situation, besides rejecting the Proposal as nonresponsive, it is liable to attract other punitive actions under relevant provisions of the RFP Document for violating the Code of Integrity.

11.2.2. The evaluation process

Unless otherwise stated, only the techno-commercial Proposals shall be opened on the stipulated date of opening of Proposals. After that, the techno-commercial evaluation shall ascertain whether these Proposals meet the requirements of the Terms of Reference, Technical Criteria and Minimum Score. Subsequent opening of financial Proposals and financial evaluation shall be done only of Proposals declared successful in techno-commercial evaluation. The evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation results are declared and Financial proposals are opened.

11.3. Techno-commercial Evaluation

11.3.1. Evaluation of Technical Proposals/ Score

- 1) Procuring Entity shall evaluate the Technical proposal and assign scores as per the scheme of criteria and sub-criteria as laid down in 'Section VII: Evaluation/ Scoring Criteria'. This determination shall, inter-alia, consider the Consultant's (i) "Specific experience of the Consultant (as a firm) relevant to the Assignment"; ii) "Adequacy and quality of the proposed methodology, and work plan"; iii) "Key Experts' qualifications and competence for the Assignment".
- 2) In the case of JV/C, the evaluation of the Technical proposal shall include the credentials of all members, including non-substantial members.
- 3) If it is established that any Key Expert nominated in the Consultant's Proposal was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation and shall be treated as a violation of the Code of Ethics and would be liable for penalties thereunder.
- 4) All Key Experts (including the Team Lead) must meet the minimum requirements specified in Section VI-A: List of Key Experts and Required Qualifications. If any Key Expert fails to meet these minimum requirements, his score shall be evaluated as Nil. If any Key Expert or Team Lead of the successful consultant scores less than the specified percentage of the maximum score (or

50%, if not so specified), Procuring Entity shall be entitled to ask for a better replacement before the negotiations as per ITC-Clause 12 below.

11.3.2. Evaluation of Conformity to Commercial and Other Clauses

Consultants must comply with all the Commercial and other clauses of the RFP Document as per submissions in Form T- 7: 'Terms and Conditions - Compliance'. The Procuring Entity shall also evaluate the commercial conditions quoted by the Consultant to confirm that all essential terms and conditions stipulated in the RFP Document have been accepted without substantive omissions/ reservations/exceptions/ deviation by the Consultant. Deviations from or objections or reservations to critical provisions such as those concerning (but not limited to) Governing laws and Jurisdiction (GCC Clause 3), Consultant's Obligations and Restrictions of its Rights (GCC Clause 5), Performance Bond/ Security (GCC Clause 5.8), Force Majeure (GCC Clause 9.6), Taxes & Duties (GCC Clause 10.2), and Code of Integrity (GCC Clause 13) shall be deemed to be a substantive deviation and treated as unresponsive as per clause 11.1.2 (3) above.

11.3.3. Evaluation of Techno-commercially Suitable Consultants and Opening of Financial Proposals:

Each responsive Proposal shall be given a technical score applying the evaluation criteria, sub-criteria, and scoring system specified in Section VII: Evaluation/ Scoring Criteria. A Proposal shall be rejected if it fails to achieve the minimum technical score indicated therein. Proposals that succeed in the above techno-commercial evaluation shall be considered techno-commercially suitable. The list of such techno-commercially suitable Consultants shall be declared on the Portal announcing a date/time and venue for opening their financial Proposals (not less than 10 days from this declaration, in line with ITC-Clause 14 below). The Procuring Entity shall notify all Consultants whether their proposal was found responsive/ non-responsive to the RFP and TOR and whether they met the minimum qualifying technical score. Financial proposals of successful Consultants only shall be opened online. The financial proposals of unsuccessful Consultants shall remain encrypted and unopened.

11.4. Financial Proposals Evaluation and Ranking of Proposals

11.4.1. Financial Proposals Evaluation

1) Financial Proposals of all Techno-commercially suitable Proposals are evaluated based on QCBS selection method and ranked accordingly.

- 2) Unless otherwise stipulated, the evaluation of prices shall be on total outgo from the Procuring Entity's pocket, to be paid to the Consultant or any third party, including all elements of costs as per the terms of the proposed contract, duly delivered, as the case may be, including any taxes, duties, levies etc.
- 3) In the case of JV/C, the financial credentials of non-substantial members shall not be considered in the financial evaluation.
- 4) As per policies of the Central Government, from time to time, the Procuring Entity reserves its option to give purchase preferences to eligible categories of consultants as indicated in the RFP Document.
- 5) Evaluation of Proposals shall include and consider the following taxes/ duties, as per ITC-clause 5.3 above:
 - a) in the case of Services performed in India or incidental goods of foreign origin already located in India, GST & other similar duties shall be contractually payable on the Services and incidental Goods if a contract is awarded to the Consultant;
 - b) The offers shall be evaluated based on the GST rate quoted by each Consultant, and the same shall be used for determining the inter-se ranking. The Procuring Entity shall not be responsible for any misclassification of the HSN number or incorrect GST rate quoted by the Consultant. Any increase in GST rate due to misclassification of HSN number shall have to be absorbed by the supplier; and
 - c) If GST is quoted extra but with the provision that it shall be charged as applicable at the time of delivery, the offer shall be evaluated for comparison purposes by loading the maximum existing rate of GST for the product/ HSN code.
 - d) If a bidder enters "zero/blank" GST or an erroneous GST, the financial evaluation will be done considering the "Zero" or quoted GST rate, as the case may be. In cases where the successful bidder quotes the wrong GST rate for releasing the order, the following methodology will be followed:
 - i) If the actual GST rate applicable is lower than the quoted GST rate, the actual GST rate will be added to the quoted basic prices. The final cash outflow will be based on the actual GST rate.
 - ii) If the actual GST rate applicable is more than the quoted GST rate, the basic prices quoted will be reduced proportionately, keeping the final cash outflow the same as the overall quoted amount.
6. Correction of Errors/ adjustments:

a) **Loading for Deviations:** Unless announced beforehand, the quoted price shall not be loaded based on deviations in commercial conditions. If it is so declared, such loading of a financial Proposal shall be done as per the relevant provisions;

b) **Discrepancies between Technical and Financial Proposal:**

i) Activities and items described in the Technical Proposal but not priced in the Financial Proposal shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

ii) If a Lump-Sum contract selection method is declared in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made.

c) **Discounts and Rebates:** If any Consultant offers conditional discounts/ rebates in his Proposal or suo-motu discounts and rebates after the Proposal Opening (techno-commercial or financial), such rebates/ discounts shall not be considered for ranking the offer. But if such a Consultant gets selected as per the selection method, without discounts/ rebates, such discounts/ rebates shall be availed and incorporated in the contracts;

7. Ambiguous Financial Proposal: If the financial Proposal is ambiguous and leads to two equally valid total price amounts, it shall be rejected as nonresponsive.

8. Quality and Cost-Based Selection (QCBS): In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them to obtain a combined QCBS (Technical cum Financial) score, as explained in the sub clauses below. In deciding the final selection of the consultant, the technical proposal will be given a weightage of 70% on the basis of the criteria for evaluation and the financial proposal shall be allocated a weightage of 30%. The proposal obtaining the highest total combined score in evaluating quality and cost will be ranked as H-1, followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 will be invited for negotiations as per ITC- Clause 12 below. If two or more bids have the same highest score in the final ranking, the bid with a higher financial score will be H-1.

a. The Technical Proposals are given an absolute technical score (T_a out of max 100) based on the evaluation criteria in Section VII: Evaluation/ Scoring Criteria. However, to normalise this w.r.t. Financial Score S_f below, a relative Technical Score (S_t) based on their relative ranking shall be calculated. The highest evaluated Technical Score (T_{a-max}) is assigned the maximum relative Technical Score (S_t) of 100 (Hundred). The formula for determining the relative Technical scores (S_t) of all other Proposals is as follows:

$$St = 100 \times Ta / Ta\text{-max},$$

in which "Ta-max" is the highest evaluated absolute Technical Score, "St" is the relative Technical score calculated, and "Ta" is the absolute Technical Score of the proposal under consideration. This normalisation would avoid any unintended magnification of weightage to the Financial score due to different scales of Technical Scores and Financial Scores.

- b. The Financial Proposals are given cost-score based on the relative ranking of prices, with the lowest evaluated Financial Proposal (Fm) being assigned the maximum financial score (Sf) of 100(Hundred). The formula for determining the financial scores (Sf) of all other Proposals is as follows:

$$Sf = 100 \times Fm / F,$$

in which "Fm" is the price of the lowest offer, "Sf" is the financial score calculated, and "F" is the price of the proposal under consideration.

- c. The weights given to the Technical (T) and Financial (P) Proposals are specified in TIS/ AITC:

T (the weight given to the Technical Proposal) in %, and

P (the weight given to the Financial Proposal) in % (with T + P = 100%)

- d. Proposals would be ranked according to their combined QCBS (weighted technical, St and financial, Sf) scores as follows:

$$S = (St \times T + Sf \times P) / 100.$$

in which "S" is the combined QCBS score, "St" is the relative technical score calculated as per sub-clause a) above and "Sf" is the financial score calculated as per sub-clause b) above.

- e. All scores shall be calculated up to two decimal places only.

11.4.2. Global Tender Enquiry:

The RFP is only a Domestic Procurement where rates are to be quoted and paid in Indian Rupees (INR) only.

12. Contract Negotiation

12.1. Invitation to Negotiate

The negotiations shall be held at the date and address announced after the selection of the successful Consultant with their representative(s), who must have written power of attorney to negotiate and sign a contract on behalf of the Consultant. During the negotiations, it shall be ensured that no undue advantage accrues to the Consultant and that nothing shall vitiate the basis on which he has been declared successful. The minutes of negotiations shall be signed by the Procuring Entity and the Consultant's authorized representative.

12.2. Verification of Original Documents

Before issuing a Letter of Award (LoA) to the successful Consultant(s), the Procuring Entity may, at its discretion, ask the Consultant to present the originals of all such documents whose scanned copies were submitted online during shortlisting process and this RFP process. If so decided, the photocopies of such self-certified documents shall be verified and signed by the competent officer and kept in the records as part of the contract agreement. If the Consultant fails to provide such originals or in case of substantive discrepancies in such documents, it shall be construed as a violation of the Code of Integrity. Such Proposal shall be liable to be rejected as nonresponsive in addition to other punitive actions in the Code of Integrity.

12.3. Availability of Key Experts:

As a pre-requisite to the negotiations, the invited Consultant shall confirm the availability of all Key Experts included in the Proposal. Failure to confirm the Key Experts' availability may result in the Consultant's Proposal being declared non-responsive and the Procuring Entity proceeding to negotiate the Contract with the next-ranked responsive Consultant.

Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period specified in the invitation letter to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.

As per ITC-Clause 11.3.1-4, Procuring Entity reserves its right to seek during negotiations the replacement of the Team Leader/ other Key Experts who score below the minimum score if specified.

12.4. Technical Negotiations

The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Procuring Entity's inputs, the special conditions of the Contract, and finalizing the 'Appendix A: Terms of Reference' part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract lest the quality of the final product, its price, or the initial evaluation be vitiated.

12.5. Financial Negotiations

- 1) The Financial negotiations include clarifying the Consultant's tax liability and how it should be reflected in the Contract.
- 2) **Lump-Sum form of BOQ:** In the case of a Lump-Sum contract, if the selection method included cost as a factoring the evaluation, the total price stated in the Financial Proposal shall not be negotiated.

12.6. Conclusion of Negotiations

The negotiations are concluded with a review of the finalized draft Contract, which shall be initialled by the Procuring Entity and the Consultant's authorized representative.

If the negotiations fail, the Procuring Entity shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity for the Consultant to respond. If disagreement persists, the Procuring Entity shall declare the proposal nonresponsive, informing the Consultant of the reasons for doing so. The Procuring Entity shall invite the next-ranked responsive Consultant to negotiate a Contract. Once the Procuring Entity commences negotiations with the next-ranked Consultant, the Procuring Entity shall not reopen the earlier negotiations.

13. Award of Contract

13.1. Letter of Award (Acceptance - LoA) and Signing of Contract

13.1.1. Letter of Award (LoA)

After 10 days from the conclusion of negotiations (in line with ITC-Clause 14 below), the Consultant whose Proposal has been accepted shall be notified of the award by the Procuring Entity before the expiration of the Proposal validity period by written or electronic means. This notification (hereinafter and in the Conditions of Contract called the "Letter of Award - LoA") shall state the sum (hereinafter and in the contract called the "Contract Price") that the Procuring Entity shall pay the Consultant in consideration of delivery of Services. The Letter of Award (LoA) shall constitute the legal formation of the contract, subject only to the furnishing of performance security as per the provisions of the sub-clause below. The Procuring Entity, at its discretion, may directly issue the contract subject only to the furnishing of performance security, skipping the issue of LoA.

13.1.2. Performance Security

- 1) The selected consultant shall be required to furnish a performance security equivalent to 5% of the contract value rounded off to the nearest thousand Indian Rupees, to the Procuring Entity within 14 days of receipt of the Letter of Award (LoA, or the contract if LoA has been skipped).
- 2) If the Consultant, having been called upon by the Procuring Entity to furnish Performance Security, fails to do so within the specified period, it shall be lawful for the Procuring Entity at its discretion to annul the award and forfeit EMD, besides taking any other administrative punitive action like 'Removal from List of Registered Suppliers' etc.

13.1.3. Signing of Contract

- 1) **Publication of Results:** The Procuring Entity shall send to each techno-commercially suitable Consultant the Notification of Intention to Award the Contract to the successful Consultant. The Notification of Intention to Award shall contain, at a minimum, the following information:
 - a) the name and address of the Consultant with whom the Procuring Entity successfully negotiated a contract;
 - b) the contract price of the successful Proposal;

- c) the names of all Consultants included in the short list for RFP, indicating those that submitted Proposals;
 - d) the final combined scores and the final ranking of the Consultants
 - e) The name and address of the successful Consultant(s) receiving the contract(s) shall be published in the Portal and notice board/ bulletin/website of the Procuring Entity.
- 2) After the award notification, the Procuring Entity shall share a copy of the Contract Agreement (as per Format I: Contract Form along with sub-formats) to a successful Consultant for review. The Consultant may point out to the Procuring Entity, in writing/ electronically, any anomalies noticed in the contract within seven days of receipt. The Contract Agreement shall be executed within 21 days after the date of issue of the Letter of Acceptance and after submission and verification of the Performance Security.
- 3) If asked by the Procuring Entity, the successful Consultant shall return the original copy of the contract, duly signed, and dated, within seven days from the date of receipt of the contract, to the Procuring Entity by registered/ speed post or by a suitable digital means.

14. Grievance Redressal/ Complaint Procedure

- 2) Within 5 working days of receipt of the complaint, the Tender Inviting Officer shall acknowledge the receipt in writing to the complainant, indicating that it has been received, and the response shall be sent in due course after a detailed examination.
- 3) The Tender Inviting Officer shall convey the final decision to the complainant within 15 days of receiving the complaint. No response shall be given regarding the confidential process of evaluating Proposals and awarding the contract before the award is notified, although the complaint shall be kept in view during such a process. However, no response shall be given regarding the following topics explicitly excluded from such complaint process:
- a. Only a Consultant who has participated in the procurement process, i.e., pre-qualification, Consultant registration or bidding, as the case may be, can make such representation.

With its extensive network of around 1.65 lakh Post Offices, the Department of Posts, branded as Department of Posts, has an unparalleled reach that extends to every corner of the country, with 90% of the Post Offices located in rural areas.

1.2. Department of Posts has made its impress on the global postal network. India is a member country of the Universal Postal Union (UPU) since 1876. This organization of 192-member countries aims to extend, facilitate and improve postal relations among the member

countries. India is an elected member of the Postal Operations Council (POC) and the Council of Administration (CA) of the UPU and also a member of the Quality-of-Service Fund (QSF) Board. India also co-chairs, with Vietnam, one of the important Committee of the POC on Postal Financial Services. India is also a member of the Asian Pacific Postal Union (APPU) along with 31 other member countries.

1.3. The activities of the Department of Posts are overseen by the Postal Services Board, which serves as the apex management body. This Board is chaired by the Secretary to Government of India assigned the charge of the Department, and is supported by seven Members with portfolios including Operations, Infrastructure, Service Quality and Marketing, Financial Services, Personnel, Human Resource Development, Technology. The Financial Advisor of the rank of Additional Secretary heads the Integrated Finance Wing (IFW) and is also panel of the Board. The Secretary of the Postal Services Board assists in the Board's functioning, with additional support from Chief General Managers of Directorates for Parcel, Postal Life Insurance and Business Development and the Deputy Directors General, Directors, and Assistant Directors General looking after various functions at the headquarters. The Director General Postal Services is responsible for overall management of the Department's operations.

1.4. Postal Network of DoP is divided into 23 Postal Circles, generally aligning with state boundaries, but with some exceptions. Each Circle is managed by a Chief Postmaster General. Larger Circles are further subdivided into Regions led by Postmasters General, with Postal and Mail Divisions (referred to as Railway Mail Sorting or RMS Divisions). Additionally, 23 Postal Accounts Offices (PAOs) manage the accounting and the General Manager (Finance) or Director of Accounts (Postal) heading the PAOs also serve as Internal Finance Advisors to Chief Postmasters General. There are various functional and supporting units such as Stamps and Postal Stores Depots and Mail Motor Services. The operational offices include Post Offices and Mail Offices (for sorting and transit handling). Post offices are categorized into Head Post Offices, Sub Post Offices and Branch Post Offices, with Branch Post Offices predominantly in rural areas. The Army Postal Services, a separate wing under the Ministry of Defence, handles the postal needs of the defence forces and is led by an Additional Director General of Major General rank, with most personnel drawn from the Department of Posts.

1.5. Department of Posts, with its landholdings, buildings and residential colonies spread across the country, possesses significant potential for revenue generation through their strategic utilization. For a number of years, the department has been feeling the need to generate additional recurring revenue which can be utilised for up keep maintenance of real estate by

proper and efficient utilisation of its land and building assets with the help of an expert agency which can assist Department of Posts in its endeavour to maximise its revenue earning potential.

1.6. Department of Posts have 1,64,987 post offices in the country. Out of these, 25,096 are departmental post offices (Sub Post Offices i.e. SOs, Head Post Offices i.e. HOs, Mukhya Dakghars i.e. MDGs and General Post Offices i.e. GPOs) and remaining are called Branch Post Offices which are operated by Grameen Dak Sevaks (GDS). The department also has a network of parcel Hubs, Sorting Hubs, Transshipment centres, Nodal Delivery centres, Automated Mail Processing centres, Postal training centres and administrative offices located throughout the country. The Department is expected to provide department owned building to all these 25,096 departmental Post offices. Presently 4373 Post office are running from buildings owned by the Department while remaining are operational from rented buildings. Department incurs a substantial expenditure as rental liability for hiring buildings to provide postal services. Construction of own buildings on vacant lands owned by the department is thus a vital requirement of the Department.

1.7. The Department owns 1,472 vacant plots of land in different parts of the country. These plots were acquired/ purchased / received as gift for construction of postal buildings over a period of time. Since only 17.43% of the Departmental post offices are functioning in departmental buildings, the Department has a policy of constructing Postal building on the vacant plots where cost benefit analysis suggests that owning a building is beneficial, compared to hiring a building on rent for operational purposes.

1.8. Employee welfare has been one of the features of the Department over the years. Residential colonies for postal employees are an important part of that feature. There are 19,845 staff quarters in 820 postal colonies throughout the country. Many of them are in bad shape as their regular maintenance have not been carried out over long period due to lack of funds. They require extensive repair works to prevent further deterioration in their condition which require large amount of fund. Many colonies are underutilized in terms of FAR. The Department propose to redevelop these colonies for revenue generation as well.

1.9. Presently 4,373 Post office are running from buildings owned by the Department. Many of them are occupying small portion of the available plot without fully utilizing the maximum

FAR permitted for construction on these plots using available additional FAR may generate additional revenue.

1.10. The department has several post offices, which occupy prime location in the heart of a town/city. These are proposed to be redeveloped in multi-storey buildings by utilising the maximum FAR permitted therein. This will have benefits like maximizing space, generating rental income, improving customer service and extra space for expanding services.

1.11. Details of activities and functions of the Department of Posts are available in the Annual Reports, which can be accessed on Department of Posts Website.
