### Security Clearance Certificate for 'India Post Website' Web Application

<b>Hosting URL:</b>	https://www.indiapost.gov.in
<b>Audit URL:</b>	https://sit.indiapost.gov.in
<b>Environment Details:</b>	Next JS
<b>Audited By:</b>	Puvvada Sai Sundeep, Ediga chandrakala
<b>Issuing Date:</b>	19 February 2026
<b>Valid Till:</b>	18 February 2027
<b>Audit Duration:</b>	13 August 2025 - 17 February 2026
<b>Hash Value:</b>	9fc5a721d595b4721cba39549b7db7882b8feeaf

#### Conclusion

The above site has undergone a Security Audit against OWASP and SANS standards and cleared from known web vulnerabilities with 1 risk acceptance.

#### Recommendations

1. Site's '**Docker WORKDIR (/app)**' folder must be hosted with the '**Read**' permissions.
2. The application's '**Docker WORKDIR (/app)**' folder is to be deployed over SSL. SSL Certificate should be implemented when the website is deployed in production environment.
3. Web server and OS level hardening need to be in place for the production server.
4. Directory browsing should be disabled.
5. Default and sample applications should be removed from the web server.
6. During production deployment, it is imperative to upgrade the application and its components to the latest stable version.
7. The application should connect with the database using a low privileged database user having minimum required database privileges.
8. Credentials used during testing should be mandatorily changed in production environment.
9. The application Server should be upgraded to latest stable version of server and the Operating System during production deployment.

#### Disclaimer

This certificate is valid for the period during which the audit was carried out and is subject to audit limitations and relies on stakeholder's assurance provided to us for certain areas as mentioned in the final level report. This is also based on the information and the state of website contents provided for final level audit. Projection of any conclusions based on our findings for future periods and application versions is subject to the risk that the validity of such conclusions may be altered because of changes made to the application or system or the failure to make the changes to the system when required. The above site has undergone Security Audit against OWASP & SANS standard and has been found safe from known web vulnerabilities.

#### Note

As per the audit policy, it is essential to refer the website for re-audit on addition/ modification of any dynamic content.
